This book is the song
In This Place I Came to Love — Soul Version.
Each illustration is a verse. Each verse is a breath.

Three ways to live it:

— Listen to the full song first. Then color in silence.

— Loop the song while you color.

— Listen to each verse before starting its page.
Let it settle. Then color.

— If you use markers, put a sheet of paper behind the page.

— The line "Just let it flow within you" returns several times: it is the chorus.

No rush. No right way.

The song

In This Place I Came to Love — Soul Version (2:18)

In this place I came to love
And to be real
To learn how to love
In this place I came here to create
In truth
In this place I feel my presence
In this place where dreams can fly
Where dreams are real
I came to love and be a child
In this place where dreams can fly
I am real and I came to love
Just let it flow within you
In this place you are real
And you came here to love
Here in this place
Just let it flow within you
Your truth has come to stay
In this place it is real
Just let it flow within you
This love has come to stay
